Support and Advice

All of your existing emails contacts and other information can be imported into any new Exchange 2007 Mailboxes

- Enterprise Class email solution without the traditional set up costs associated with Microsoft Exchange 2007
- Free Outlook 2007 (or Entourage 2008 for the MAC) email clients to provide access to all of the features of Microsoft Exchange
- All of your email messages, contacts calendar and tasks available to you wherever you are whenever you need them
- Blackberry, iPhone and Windows Mobile Wireless Services are available as added options

If you need reliable and secure email for your business or for yourself, Hosted Exchange 2007 is a perfect solution that will provide all of the features you expect and more. Our flexible pay monthly or 12 monthly plans, bring with them the use of Microsoft Exchange® accounts with Microsoft Outlook® without any of the investment in the costly hardware and software infrastructure normally required to set up these enterprise class solutions.

Your Exchange Email is stored centrally on managed and replicated servers. This provides the redundancy and fast connectivity from wherever you are and enables you to access all of the features of Exchange Email by any of the different means available.

Blackberry and Windows Mobile Wireless services are available as additional options for any or all mailboxes to allow users to stay in touch wherever they are. Any new or sent emails and changes to calendar, tasks and contacts are automatically synchronized with the mailbox.

Use a browser from any internet connected PC or MAC to access your email, calendar, contacts and tasks. Outlook Web Access (OWA) 2007 has been given additional functionality over previous versions of OWA. It now offers virtually all of the features of Microsoft Outlook®
